310 B, Safwa, Gardens of Oct.

EXPERTISE

- Machine Learning
- Deep Learning
- Python
- Computer Vision

LANGUAGE

- English
- Spanish (basic)
- Germany (basic)

WORK EXPERIENCE

Machine Learning Specialization
Online (Stanford Online - Coursera - DeepLearning.AI)
June 2023 - August 2023
One of the Best Courses in the Machine Learning filed featuring a lot of key principles of the Mathematics behind the machine learning models and specific tips and tricks for professional use

Project (MaLoM)
Cairo - Egypt
2020 - 2021
I managed to start developing "Malom," an AI-driven Optical Character Recognition solution designed to assist researchers. We encountered numerous technical challenges, but our persistence led us to secure fourth place nationally.

Breast Cancer Detection
Giza - Egypt
August 2020- September 2020
Developed a Flask-based web application for predicting Breast Cancer risk using a pre-trained machine learning model. The app allows users to input various parameters, processes this data, and outputs whether the tumour is benign or malignant.

EDUCATION

Faculty of Computer and Artificial Intelligence Cairo University
Bachelor of Computer Science
2024-2028

DECI Graduate
DECI Geeks Team Leader
2023-2024

SKILLS SUMMARY

Machine Learning	Data Preprocessing	Computer Vision
93 %	79 %	95 %
